Research Proposal (Non-Confidential)

Research topic(s): Please list Area of Focus (e.g., oncology), Stage and Technology

Area of Focus:

Stage:

Technology:

Project Title **Project Description** (You may append up to one page of figures.)

Significance – State the overall purpose of your project and its anticipated long-term impact, if successful. (450 characters)

Innovation – Explain what is innovative about your proposal. (600 characters)

Aim(s), Work Plan of Proposed Seed Grant – Describe the specific work to be done, including one or more Aims and their target completion date(s) in this funding part, assuming a **January 1, 2023** start date. (2000 characters)

Future Perspective following UC DDC Seed Grant – Contingent upon interest from a UC DDC industrial partner sponsor, a higher level of funding may be offered to carry out an expanded version of the project, and substantial follow-on funding and/or collaboration is possible. Please outline a future perspective of your project following the initial UC DDC Seed Grant project proposed above. (600 characters)

Intellectual Property Report any relevant record of invention, invention disclosure, patent applications or issued patents, and licensing commitments. (600 characters)

Budget Please attached itemized budget up to \$100K direct costs. Final budget will be determined following review and must be commensurate with and clearly tied to the accomplishment of the project. Costs may include salary and benefits, supplies, instrument access, and travel costs.
